## PREFACE.

---

THE EAGLE PENCIL made its first appearance in America in the year 1860. Its immediate task was to overcome the prejudice in favor of the only pencil then favorably known to the public.

Although children were forbidden to bring anything else to school, and accountants and draughtsmen refused to examine anything new, American people soon discovered a satisfactory article in the EAGLE PENCIL, while after the establishment of the Company's factory in this country, with the use of American machinery and American talent, the EAGLE PENCIL soon made itself known through the land as a pencil of the highest order, always reliable and very moderate in price.

The aim of the Company from the outset has been to place before the public pencils, faithfully made and of the very best material, workmanship and quality, and to increase its extensive line from time to time with the choicest, most unique and best novelties and designs, invented and manufactured by it exclusively.

The success of this policy has so fully demonstrated itself both here and abroad, that the EAGLE PENCIL COMPANY of to-day is justly celebrated all over the world, and is by far the largest and most extensive manufacturer of lead pencils in this or any other country.

The Company would also call attention to the Steel Pens, the patented Fountain Pens, Pearl Holders and Sterling Silver Novelties described in this catalogue, which are all manufactured in their own factory.

In submitting this Revised Price List, the EAGLE PENCIL COMPANY wishes to express its gratitude to its numerous friends and patrons for past favors and respectfully solicits a continuance of same.

the same price.....\$9 37

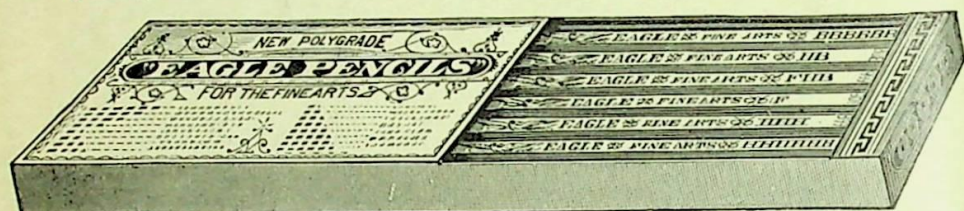

## Eagle Fine Arts Pencils

THE FINEST AND MOST PERFECT SET OF DRAWING PENCILS EVER MADE.

Particularly adapted to the use of Artists, Architects, Draughtsmen, Engineers and Engravers. Accountants will find a most exquisite article in this set. In art, the softest grades will rival charcoal in delicacy of effect in shading; the hardest will give sharp, distinct lines, and all perfectly erasable. Good in all grades. The soft are tough, with a remarkable velvet touch; the hard are very smooth and not brittle.

These pencils are used in the Government offices of the United States, and by the leading Architects, Civil Engineers and Artists on account of their unsurpassed quality.

*In Patent Packing Boxes of One Half Dozen.*

HEXAGON, NATURAL, STAMPED IN GOLD.

All degrees the same price per gross ..... \$10 00

Accurately graded in fifteen degrees of hardness

351	BBBBBB. Extremely Soft.	359	F. .... Medium.
352	BBBBB .. Extra Soft and Extra Black.	360	H ..... Medium Hard.
353	BBBBB .. Very Soft and Very Black.	361	HH ..... Hard and Black.
354	BBB .... Very Soft and Black.	362	HHH ..... Hard.
355	BB. .... Soft and Black.	363	HHHH. .... Very Hard.
356	B ..... Black and Medium Soft.	364	HHHHH ... Extra Hard.
357	HB. .... Medium Soft.	365	HHHHHH. Extremely Hard
358	FHB .... Medium and Black.		and Firm.

These Fine Arts Pencils are distinguished by the following specialties :

1. They are absolutely free from grit or any foreign substance and are chemically pure.
2. They are most accurately graded and the degree of hardness and softness is invariably maintained.
3. They are very durable as their point is solid and firm.

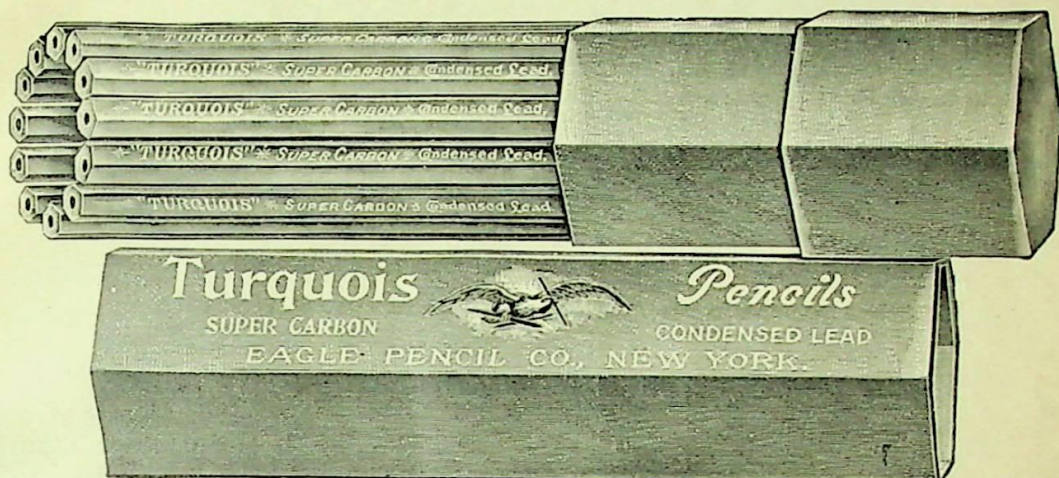

are very delicate of touch.

and wears smoothly away, can easily be erased and leaves absolutely

as in Europe have testified to the makes.

## Eagle "Turquoise" Pencil

*Hexagon Shape, Blue Turquoise Polished, Stamped in Gilt on Two Sides ;  
Packed in Quarter Gross Boxes.*

This very superior and extraordinarily fine style is made in fourteen distinct and different degrees of hardness. The lead is made of the very purest Graphite, and prepared by the most reliable and improved system in existence. It is free from foreign substance, and the points offer the greatest resistance to wear, obviating the necessity of frequent sharpening. All that art, skill, experience and science can accomplish is achieved in the production of this article. The grading is most accurate and reliable, pleasing to connoisseurs and all who appreciate perfection in this line. It is specially recommended for the use of Architects, Engineers, Wood Engravers, and all others doing fine drawing. The exquisite and delicate coloring is in the "Turquoise" shade, the packing is in our new circular shape of one dozen, fully displaying each and every pencil.

The grades are as follows :

BBBBBBB. Extremely Soft.	F ..... Medium.
BBBBBB .. Extra Soft and Black.	H ..... Medium Hard.
BBBBB.... Very Soft and Very Black.	HH ..... Hard and Black.
BBB ..... Very Soft and Black.	HHH ..... Hard.
BB ..... Soft and Black.	HHHH .... Very Hard.
B ..... Black and Medium Soft.	HHHHH... Extra Hard.
HB..... Medium Soft.	HHHHHH. Extremely Hard and Firm.

375 All degrees the same price.....\$9 37

# Eagle Standard Pencils

(Trade Mark Registered.)

One Dozen in Patent Packing Boxes.

## FOR ARTIST, SCHOOL AND OFFICE USE

The above method of patent packing exhibits the pencils sufficiently without removing the cover, and possesses the great advantage that each pencil can be taken out or replaced without the packing being disturbed. By simply *sliding* the cover off and reversing it, all the pencils are enclosed and show the value of the box in its closed form.

No. 4, Very hard, for Engravers.....	573½
No. 5, Extremely hard, for technic uses .....	574
	575

The Eagle Standard pencils contain the finest graphite, the best quality of cedar, and are highly polished. They will be found to have smooth and tough leads, entirely free of grit, the point is durable and gives clear and distinct lines, easily erased, and the grading is most perfect, so that they well deserve the name of "Eagle Standard." They are used in the schools of all the larger cities in the Union, in all the departments of the U. S. Government, as well as by various railroad companies and municipalities.

## Eagle "Orloff" Pencil

*Hexagon Shape, Yellow Polished, and Stamped in Gilt; Packed Quarter Gross in a Box.*

This pencil contains the purest and best graphite, which equals, if not excels, goods of the highest order made in foreign markets.

The lead is efficiently compressed and specially prepared, and is thoroughly pure, fine and free from grit. It is made in different degrees of softness and hardness, and is specially adapted for draughtsmen, architects, lithographers, bookkeepers and merchants.

The grades are as follows :

BB .. Extra Soft.	H ..... Medium Hard.
B ... Soft and Black.	HH ..... Hard and Black.
HB .. Medium Soft.	HHH .... Hard.
F .... Medium.	HHHH .. Very Hard.

843 All degrees the same price..... \$4 38

## Eagle Hexagon, Plain Cedar, Best

IN STAINED WOOD.

514 Hexagon, Natural Finish, Gilt Stamped .. \$5 63

## Eagle "Critic's Choice"

Unsurpassed for its special and extraordinary high quality of lead.

The most rigid and scrupulous care taken in its artistic preparation. Contains the very finest ingredients known in the line of pencil-making.

Artists, draughtsmen and fastidious writers will choose this article as their favorite.

Made in Ebony and in this strictly special grade only.

414 HEXAGON SHAPE, packed 1 dozen in a box and 1/2 gross in a carton..\$7 50

## Eagle Nerograph Pencils

*In Patent Packing Boxes of One Dozen, and Half Gross in a Box.*

By skillful preparation, through an entirely new and original process the lead in the Nerograph produces an extreme black mark not obtained by any other pencil.

The most artistic effects can be obtained, which will be highly appreciated for Free Hand Drawing or Sketching work. Although the Lead is of an extra large size and extra soft, still it is extremely durable and in nowise brittle.

251 Round, large diameter, highly polished in Ebony finish, stamped in gold ..... \$4 37

## Eagle Short Hand Pencil

Patented April 24, 1894. Registered April 28, 1894.

*Round, Natural Polish, Stamped in Silver; Packed One Dozen in a Package and Half Gross in a Box.*

The patented special finish prevents the fingers from slipping and secures ease and comfort to the writer. The lead is of an extra fine quality, smooth and durable, and has been specially prepared for the use of Shorthand writers.

272 No. 2; 273 No. 3.....\$5 63

# EAGLE SIMPLEX PENCIL

(Patented February 4th, 1896. Also patented in Germany, Canada, Austria, England, Russia, France, Belgium, Hungary, Sweden, Mexico, India and Australasia.)

By simply removing the wood with the finger nails, you can obtain as long a point as desired. This obviates the use of a knife or any other method for sharpening.

The lead contained in the Eagle Simplex Pencil is of an unequalled quality and is made from the Purest of Graphite by a new and special process entirely our own.

(Patented February 4th, 1896, and July 14th, 1896.)

ROUND, Black Polished, Silver Stamped, with Rubber Eraser, and Lead Pointing Attachment.

*Packed One Dozen in a Box, and Half Gross in a Carton.*

The ingenious construction and skillful mechanism of this pencil enables the writer (besides removing the wood with the finger nail) to point the lead with ease, convenience and rapidity, as illustrated in above cut.

(Patented July 20th, 1886.)

*Packed in Half Gross Boxes, Round, Gilt Stamped.*

547 No. 2, Rosewood Polish..... \$2 50

## Eagle Spear Pencil

(Patented February 18th, 1890.)

The above cut shows a pencil having a rubber tip attachment in the shape of a "Spear," from which it derives its name. This shape is not only very attractive, but it has the advantage that while the rubber is held firmly, it enables the user to **erase the finest line**, very conveniently. As the rubber wears away the tip can be opened, the rubber moved forward, and when desired a new piece of rubber can very easily be substituted. These goods are especially adapted for Draughtsmen and Type-writers, as well as for counting house and general use, and are packed very neatly with our newly designed labels, in half gross boxes, black, rosewood and silk polish, assorted.

523 No. 2;

# Eagle Diagraph Pencil

(Patented April 24th, 1894. Registered April 28th, 1894.)

*With Erasers encased in Nickel Tips, Natural Polish, Stamped in Silver,  
Packed Half Gross in a Box.*

The Diagraph Pencils, made in Round and Hexagon, are the very latest in the manufacture of Lead Pencils.

The extraordinary fine finish, most elegant in appearance, is a new contrivance, produced by a special process.

When using them the hands and fingers will not become tired so easily as in writing with ordinary finish pencils, and we take pleasure in especially commending them to Accountants, Bookkeepers and Correspondents for convenience and easy writing.

The quality of the lead is also of a very high order, and we are certain that this article will command an extensive and rapid sale.

# Eagle New Pencil Sharpener

(Patented August 1st, 1893.)

*Round, Natural Polish, Silver Stamped, Packed Half Gross in a Box.*

Every Sharpener is fitted with one of our **Eagle Standard Pencils**, thus securing to the consumer a first class Pencil and Sharpener at a very popular price. It has been our endeavor in making the above little device for sharpening pencils, to offer to the trade and the public generally an article that is simple in mechanism and at the same time clean, neat and useful.

557No. 2 ; 557No. 3..... \$4 50

## Eagle Inserted Rubber Head Pencils

These pencils contain about one inch of the best erasive rubber, which, being encased in wood, is perfectly protected against being soiled, and may be sharpened to a point for erasing fine lines.

The attention of the trade is directed to the fact that the Eagle Pencil Co. first manufactured and introduced into the market *all conic shaped* pencils. The scrupulous care exercised in making these styles of the very highest order has made them famous and justly celebrated. While others, prompted by the increasing sales and great success are now making imitations of these styles, it will be found that the old reliable and popular conic pencils are made solely and only by this company.

## Assortments of Pencils

This assortment is made of several of the Eagle Pencil Co.'s popular brands. It contains assorted styles of Rubber End Pencils, suitable alike for Counting House, Schools, and general purposes.

The increased sales of this Assortment assure that it meets with general approbation, and the handy convenience of showing the buyer the pencils is appreciated by the retailer and buyer alike.

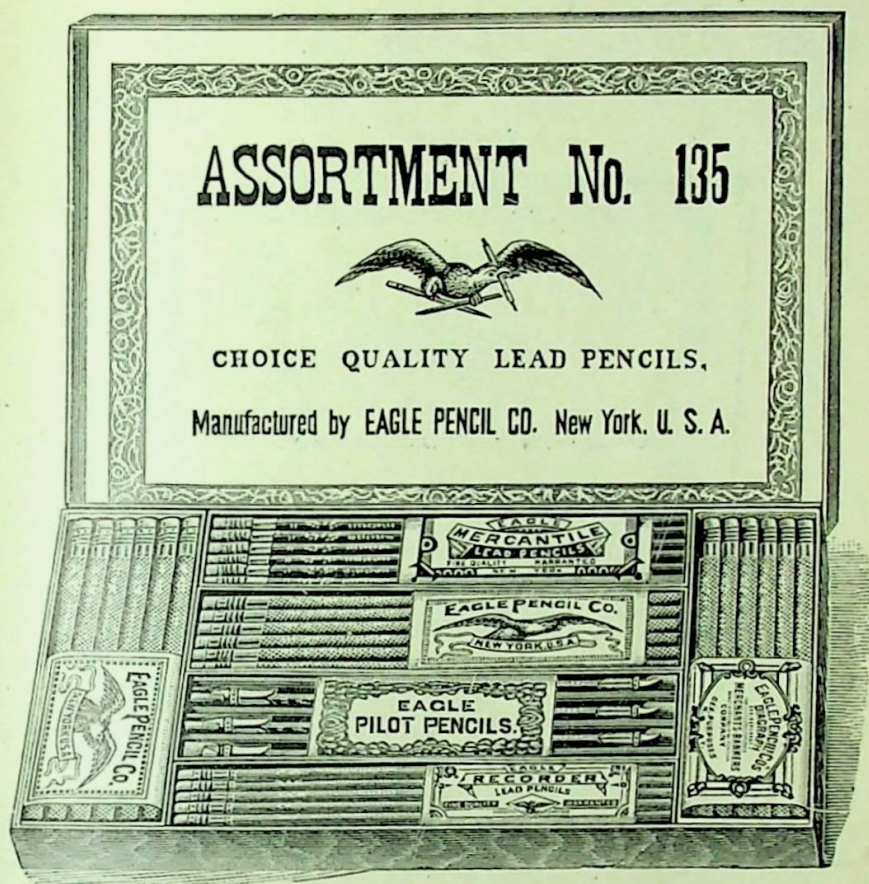

They contain six dozens, viz.: Pilots, Large and Small, Progress, Mercantiles, Round and Hexagon, and of different polish, which cannot fail to please the public generally.

**128** Assortment, per Dozen Boxes..... \$16 50

Colored lithographed cards, illustrating the above assortment, will be furnished on application.

## Eagle Diagraph Assortment Box

The above cut represents our new Box containing six dozen of assorted pencils including our latest production, the Diagraph Pencil.

This last mentioned style has grown in public favor owing to its great merits, as the patented special finish prevents the fingers from slipping and secures ease and comfort to the writer.

### Contents of box :

*Nicely Packed, One Dozen in a Box and Three Dozen in a Carton.*

STYLE OF PACKING

This Patent Novelty of the EAGLE PENCIL COMPANY has deservedly become the most popular pencil of all pencils ever manufactured or known to the public.

It is in all respects entirely automatic, even to the adjustment of the lead. While our well-known and celebrated Automatic Pencils, when pressed on the top and held downward, will not prevent the lead from falling, this ingenious contrivance will *mechanically hold the lead and will automatically adjust and gauge it to the jaw*, so that when pressure ceases the entire pencil is ready for writing.

In offering this article to the trade and the public generally, we are confident that it will prove the most convenient, the most useful and the most desirable mechanical pencil ever introduced.

# Eagle Pencil Company's Magic Knife

(Registered.)

(Patented in the United States June 5, 1883.)

ALSO IN CANADA, ENGLAND, FRANCE, GERMANY, AUSTRIA, RUSSIA, BELGIUM,  
ITALY, SPAIN, ETC.

*Packed One Dozen in a Box and Half Gross in a Carton.*

The easiest knife in the world to open; no stiff joints, consequently no broken thumb-nails. The blade moves out or in when pressure is applied on the end opposite the blade according as that end is held down or up; the blade entirely concealed in the case, is effectually protected from dirt and rust. There are no sharp corners or projecting points to damage the pocket.

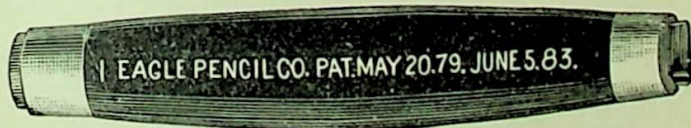

A small pocket knife is a necessity with every one, and none better than this—for either lady or gentleman—has ever been produced.

- 2200 Round, Chased Rubber Handle, per Gross.....\$22 50  
2200C Round, Celluloid Handle, in Assorted Colors..... 22 50

- 2202 Round, Spiral Shaped Handle (*Packed One Dozen on a Card*) ..... \$9 37

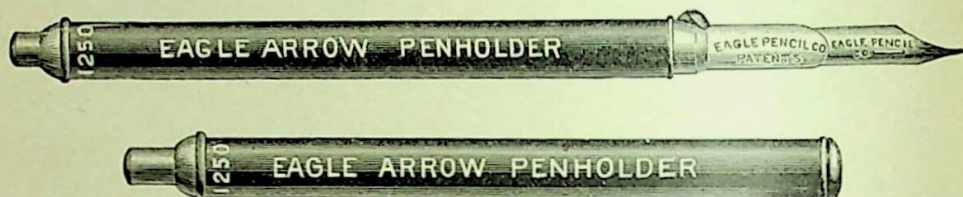

- 2300 Large Size, Black Handle, with Gilt Stamp.....\$22 50

## Eagle Arrow Penholder

(Patented February 1st, 1887.)

*Nicely Packed in Boxes of One Dozen and Six Boxes in a Carton.*

This Penholder is more especially intended for pocket use, as it is hermetically sealed against dirt or dust when closed.

In appearance and working it greatly resembles the celebrated Automatic Pencil, though in its mechanism it is entirely different.

A simple pressure upon its cap, when held point downward, will release the check or button, and the pen drops into position, the check slipping into a groove made for the purpose in the Penholder and holding it securely.

To close the Penholder, simply reverse it and press upon the cap, when the check will be released and the pen slides back into the holder.

1250 With Black Japanned Handle..... \$9 37

(Patented February 1st, 1887.)

*Put up on Cards of One Dozen, with an Eagle Gilt Steel Pen in each Holder, Half Gross in a Carton.*

1252 A new style of Arrow Penholder, with Spiral Shape Handle..... \$9 37

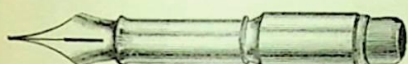

# Eagle Fountain Pen

(Patented April 29th, 1890, September 16th and 23d, 1890, Registered No. 157,341.)

We claim that this is the most complete, useful and convenient Fountain Pen ever offered to the public. It can be retailed at a lower price than any other Fountain Pen, and therefore brings it within the reach of all.

To operate this Fountain Pen, simply remove the rubber cork from the filled glass vial and connect the latter with the rubber tube of the pen tip by turning it gently, then replace both in the nickel case, and the pen is ready for use.

The Vials can be obtained filled separately by ordering No. 1452, thereby obviating the disagreeable features connected with the use of other Fountain Pens—principally, the refilling with ink.

No. 1451.

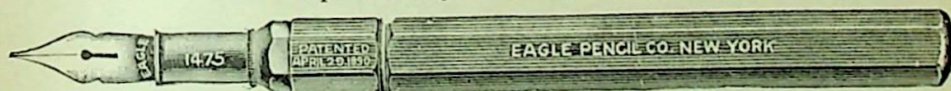

This Pen is our own manufacture, **Non-Corrosive**, and made to fit the **Eagle Fountain Pen**; therefore no other kind of Pen should be used, in order to insure satisfactory results. In replacing the Pen, care should be taken to see that the Pen and Duct are pushed in as far as possible, so as not to allow too free a flow of Ink. Stub Pens can be had for use with the above Fountain Pen by ordering No. 1453.

1450 Fountain Pen complete..... \$9 37

*Packed One Dozen in a Box, and Half Gross in a Carton.*

## Eagle Economy Pencil

(Patented August 16th, 1887.)

*Packed One Dozen on a Card and Six Cards in a Carton.*

This novelty consists of a tube in which on one end an ordinary pencil is inserted in such a way that the pencil can be moved forward or backward without any difficulty whatever, and is still held firm enough to enable the writer to use it very conveniently.

The other end of the tube is ornamented with our patented Spiral Rubber Tip, which protects the rubber from soiling when not in use, just as the holder protects the pencil.

## Eagle Combination Pen and Pencil

*Put on Cards of One Dozen Each and Six Cards in a Carton.*

Neat in appearance, convenient in use, and very practical for general requirements. The barrel is polished on metal in our National colors, red, white and blue. The nickel-tip end when reversed is fitted out with a good and durable lead pencil; the other end has a rubber eraser, and when reversed is fitted out with a very superior quality of our steel pens.

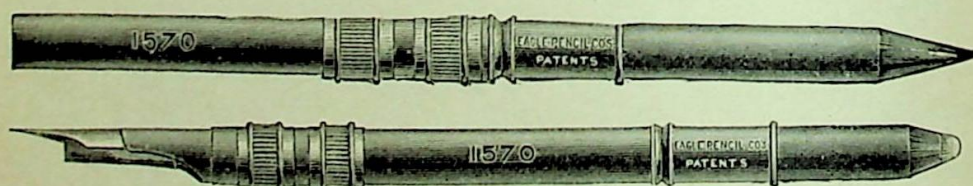

1209 ..... \$4 07

1210 Same as above, but Polished in Assorted Colors, as follows: Red,  
Light Blue, Yellow, Violet, Light Green and Pink..... 4 07

## Eagle Solid Ink Fountain

The SOLID INK when dipped with the pen into water dissolves into the best writing and copying fluid.

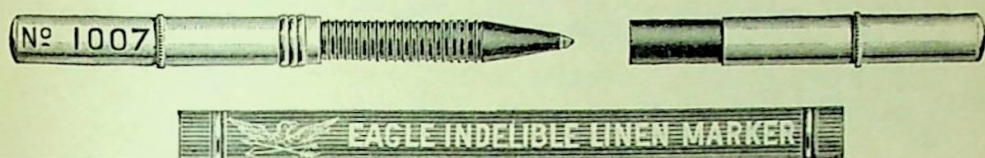

Only so much of the composition will dissolve as is actually required, and becoming immediately dry and solid again after use, makes the article fit to be conveniently carried in the pocket without waste or soiling.

1570 (Purple) Perfection Pencil Holder, Double Sliding, with Gilt Pen  
and Protector..... \$8 75

## Eagle Indelible Linen Marker

*Packed One Dozen in a Box and Half Gross in a Carton.*

We claim for this article that it is absolutely and thoroughly indelible.

It will mark linen and cotton fabric without in the least injuring the goods, and as soon as the marks are made they appear in the best jet black and remain ineffaceable. No exposure to the air, no heating, no ironing necessary.

### DIRECTIONS.

Dampen the fabric slightly, then use the mordant, rubbing it over several times. When this is done use the other end—the marker. Make a slight pressure only when writing, and see that the marker is pointed before using it.

1007 Indelible Linen Marker ..... \$9 37

## Eagle Stylus, with Steel Tips

*Packed Quarter Gross in a Box.*

1550 Taper Handle, Natural Polished..... \$3 13

2350 Swell Handle, Black Polished..... 3 13

## Eagle School Compass

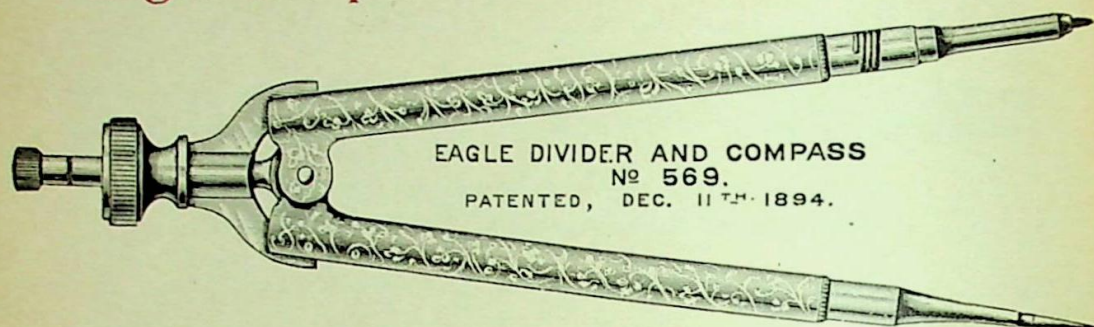

568 Compass with Pencil 7 inches long..... \$4 37

*Packed One Dozen on a Card and Half Gross in a Carton.*

## Eagle Compass and Divider No. 569

*Packed each in a Box together with a Nickel Box containing Six Refills.*

For Architects, Draughtsmen, Artists, School Children and Mechanics, this handsome article will be found to be most useful and reliable in its work.

While its mechanism is most ingenious, it can be manipulated with such simplicity that a child can readily and freely use it. It is not only unrivalled as a Compass, but its merits as a Divider are fully as thorough and complete.

**DIRECTIONS**—To adjust the Compass revolve the screw. To use it as a Divider, simply reverse the tip. By turning the tip a new lead can easily be inserted.

569	Compass and Divider.....	\$22 50
2903	Extra Leads to Fit (6 Leads in Small Wooden Box), per Gross Boxes.....	6 00

## Eagle "Bullet" Pocket Eraser No. 491

*Packed One Dozen in a Box and Half Gross in a Carton.*

Contains best quality erasive rubber, in reversible nickel case, well adapted for accountants, typewriters, merchants, schools, etc.

- 491 ..... \$4 37

## Eagle Bevel Erasers

After repeated and very costly experiments, and by the use of superior ingredients in the preparation, we have finally succeeded in producing an entirely new compound, which will readily erase fine or coarse lines, without leaving any marks; will stand the influence of any climate, will preserve its elasticity, and will remain pliable and soft in use. We feel confident that accountants, draughtsmen, teachers, for the use in public schools, merchants, and the public generally will find this RUBBER ERASER the best ever made, and thoroughly satisfactory in all respects.

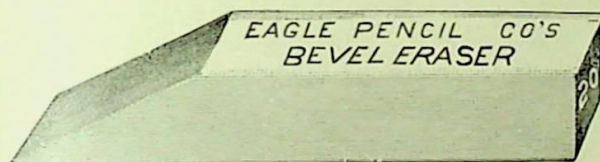

All the Erasers are neatly packed in boxes containing one pound.

1072 8 pieces to the lb.

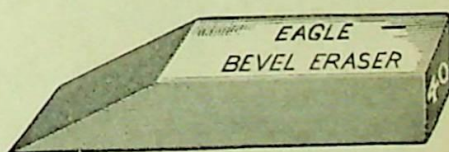

1073 12 pieces to the lb.

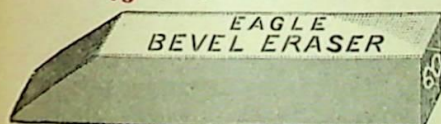

1074 20 pieces to the lb.

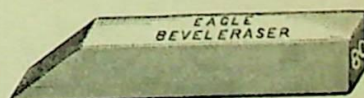

1075 30 pieces to the lb.

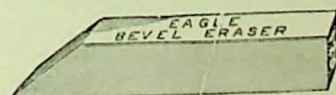

1076 40 pieces to the lb.

1077 60 pieces to the lb.

1078 80 pieces to the lb.

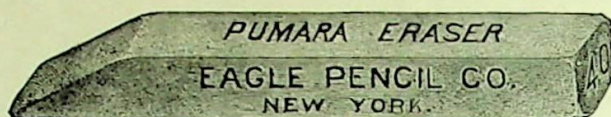

1080 120 pieces to the lb.

All sizes, per lb. .... 88 cts.

## Eagle Pencil Company's Pumara Eraser

The compound, of which the Pumara Eraser is made, is a triumphant result of numerous experiments, and it possesses erasive qualities which cannot be found in any other rubber.

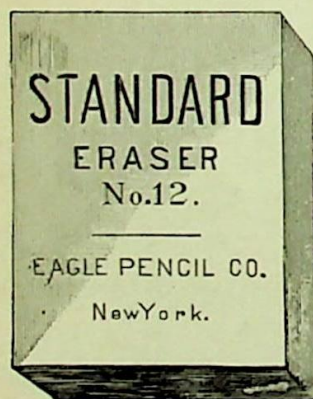

It will easily and readily erase the finest marks without injuring the surface of the paper. It does not smear and it has the desired "catch." Will never harden or become glossy, and requires but little pressure or exertion to erase quickly.

1067 Pumara Eraser, per Pound..... 93 cts.  
8, 12, 20, 30, 40, 60 and 80 Pieces to the Pound.

## Eagle Standard Erasers

IN SQUARE SHAPE, AND MADE OF THE FINEST COMPOUND.

*All Packed in Boxes Containing One Pound.*

1053 12 Pieces to the Pound.

1054 20 Pieces to the Pound.

1055 30 Pieces to the Pound.

1056 40 Pieces to the Pound.

1057 60 Pieces to the Pound.

1058 80 Pieces to the Pound.

All sizes, per lb..... 88 cts.

## Eagle School Eraser

A Fair Quality of Eraser in Bevel Shape for School Use.

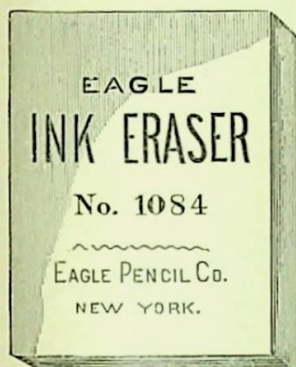

892	8 Pieces to the Pound, per Pound.....	\$0 63
893	12 " " " " .....	63

897	60 " " " " .....	63
898	80 " " " " .....	63
899	120 " " " " .....	63

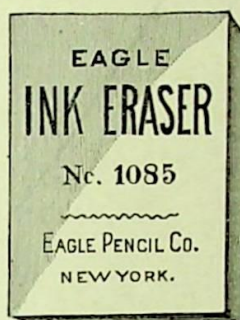

## Eagle Ink Erasers

Since establishing our new factory for the manufacture of **Steel Pens**, we have felt the necessity of a good **Ink Eraser**, and we are glad to say, that we have succeeded in producing an entirely new compound for **Ink Erasers**, which we think will be found superior to any other in the market. They will remain soft and pliable in use and will stand the influence of any climate.

We make them in three styles, as per cuts below:

1084 20 pieces to lb.

1085 30 pieces to lb.

1086 40 pieces to lb.

*Packed in Boxes containing One Pound.*

Above three styles, per lb ..... 94 cts.

## Eagle Typewriter Erasers

Owing to the increasing use of Typewriters, we have also added to our line, **Typewriter Erasers** which are of a new compound. They are made in two sizes, and we feel confident that our **Typewriter Erasers** will be a successful addition in Typewriters' Supplies.

*Packed One Dozen in a Box and One Gross in a Carton.*

No. 1065. Large Size.

No. 1066. Small Size.

1065	Large Size, per Gross.....	\$5 63
1066	Small Size, per Gross.....	3 75

## Eagle Ink and Pencil Eraser

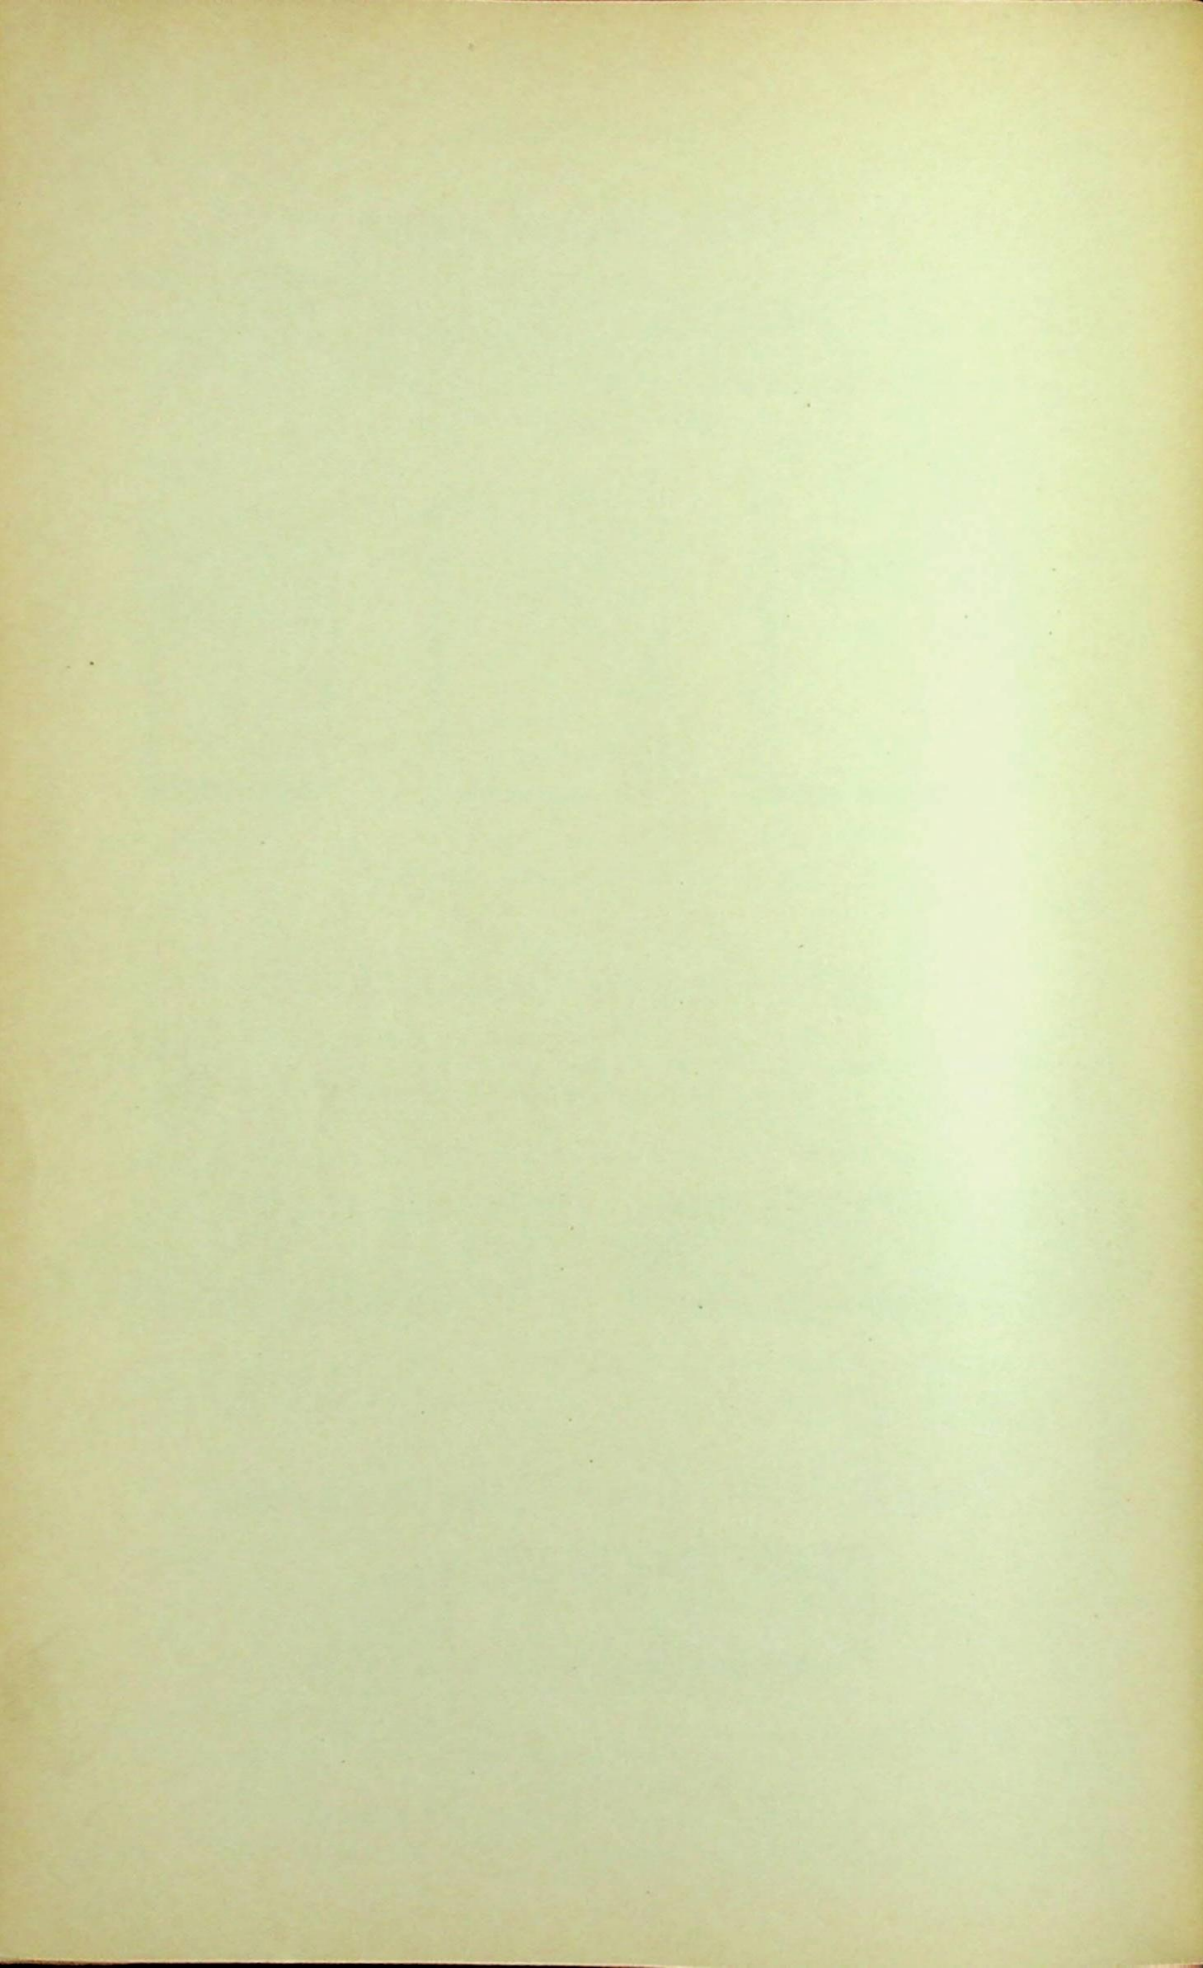

The above illustrates a new style of Eraser which is very handy. Combines Ink and Pencil Eraser in a new and ingenious way. Both ends are beveled, so as to enable the user to erase the finest lines.

*Packed One Dozen in a Box and One Gross in a Carton.*

486 Ink and Pencil Eraser, per Gross..... \$4 50

## Eagle Pen=Ejecting Holder No. 1528

(Patented December 5th, 1893.)

NO SOILING OF THE FINGERS.

NO BREAKING OF THE PEN.

The great difficulty experienced in removing pens from the ordinary pen-holders will be found to be entirely obviated in using the Eagle Pen-Ejecting Holder. The holder consists of a tapering swell polished cedar handle with a corrugated hard rubber tip. By simply sliding the rubber tip back, it readily ejects the pen, though it may be entirely clogged with ink.

1528 Packed in Half Gross Boxes..... \$6 00

## Eagle Penholder No. 1628

(Patented July 24th, 1894.) (Registered June 27th, 1894.)

*Packed One Dozen on a Card and Half Gross in a Carton.*

This article, owing to its patented finger-tip arrangement, enables the writer to use it with more ease and comfort than the ordinary penholder.

1628 Natural Polish, Silver Stamped..... \$5 00

## Eagle Penholder No. 1016

*Packed One Dozen in a Fine Leatherette Box, and Half Gross in a Carton.*

Each box comprises one dozen highly polished swell penholders, assorted in six different select colors, viz.: Red, White, Blue, Brown, Green and Black, with finely engraved gilt tips and gilt pens. Extra gilt pens can be had under No. E-500.

1016..... \$10 00

## Eagle Penholder No. 1828

(Patented March 3d, 1896.)

Taper Penholder Stick of Cedar, Birch or Maple Wood, with corrugated rubber tip, so constructed that any size pen, from the smallest to the largest, will fit into the tip.

*Packed One Dozen in a Box and Half Gross in a Carton.*

1828 ..... \$6 00

## Eagle Cork Penholders

(Patented July 5th, 1898.)

*Packed One Dozen in a Box and Half Gross in a Carton.*

A veritable boon to writers. A cork-tipped, tapering penholder, cedar, red and black, polished, silver stamped. Most handy, convenient and easy to the fingers and light in weight.

1923 ..... \$6 00  
1929 Smaller Size ..... 6 00

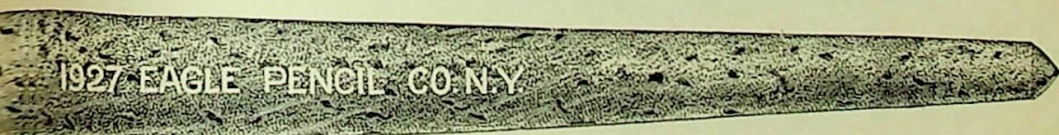

(Patented July 5th, 1898.)

*Packed One Dozen in a Box and Half Gross in a Carton.*

This tapering Penholder is covered entirely with Cork, which gives the hand a very soft and pleasing touch, and is therefore especially recommended to all writers suffering from cramp by continuous writing.

1926 ..... \$6 00

*Packed One Dozen in a Box and Half Gross in a Carton.*

A Penholder manufactured of Solid Cork with nickel inserted tip of the most durable character. Thick and short and extremely light, so that it will not fatigue the hand.

1927 ..... \$10 85

## Eagle Crown Penholders

(Patented October 2d, 1883; March 5th, 1883, and November 3d, 1891.)

### THE PERFECTION OF ALL ANTI-NERVOUS PENHOLDERS.

*Packed One Dozen in a Box and Half Gross in a Carton.*

They are made of carefully selected Cedar Wood in a tapering swell shape, tipped with **hard rubber** and provided with our new improved method of holding the Pen. They are exceedingly light in weight, weighing much less than an entire Rubber Holder of a similar size.

**Bookkeepers and Accountants** in using the **Crown Penholders** will not feel tired in the hands or fingers, which is so frequently experienced from continuous writing, and in the use of metallic tipped holders.

No. 1 Small..... \$6 00

No. 2 Medium..... \$6 75

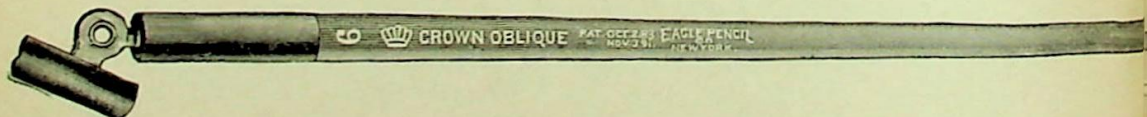

No. 3 Large..... \$7 35

No. 4 Thick and Short..... \$7 35

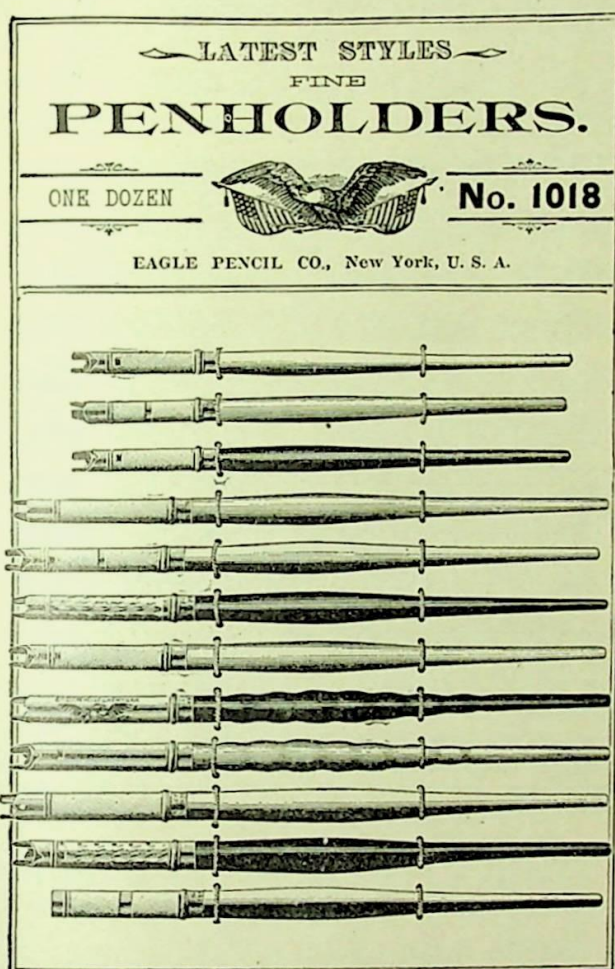

No. 5 Mammoth. The new Pen Attachment possesses the advantage that the writer can use any style of pen, from the smallest to the largest in size..... \$10 85

No. 6 Crown Oblique, { packed Half Gross in a Box..... \$ 8 40  
 { packed One Dozen on a Card..... 10 00

## Eagle Penholders on Cards

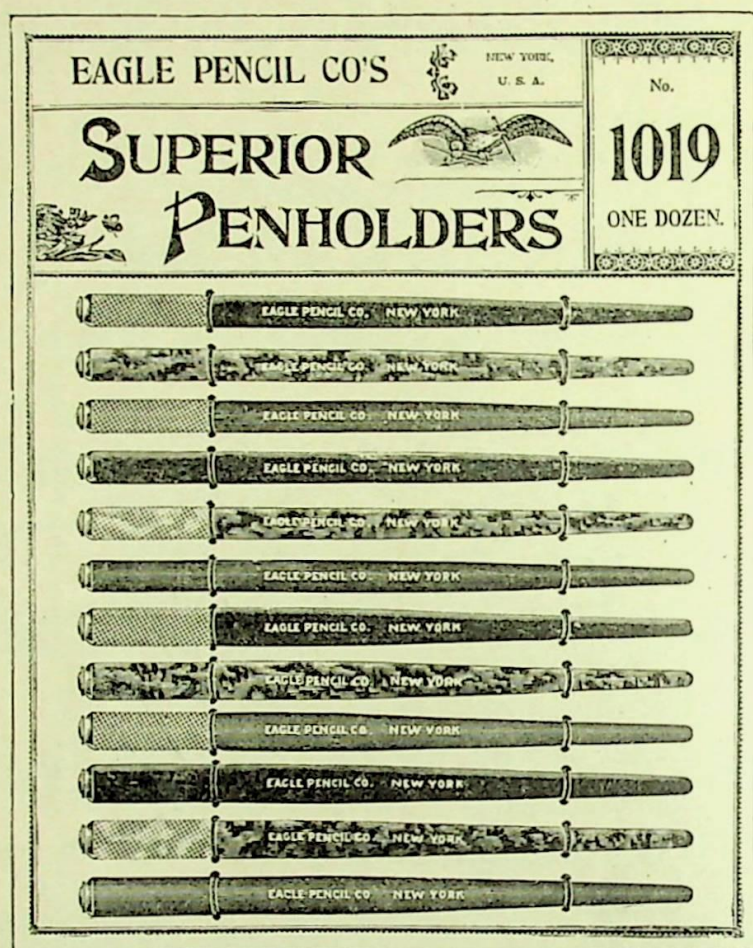

*One Dozen Penholders on a Card. Various New Designs.*

This assortment comprises different sizes of highly Japanned Penholders. They are made of the choicest material and the tips are the latest specially designed patterns in finest nickel and gilt finish.

## Eagle Penholders on Cards

*One Dozen on a Card and Half Gross in a Carton.*

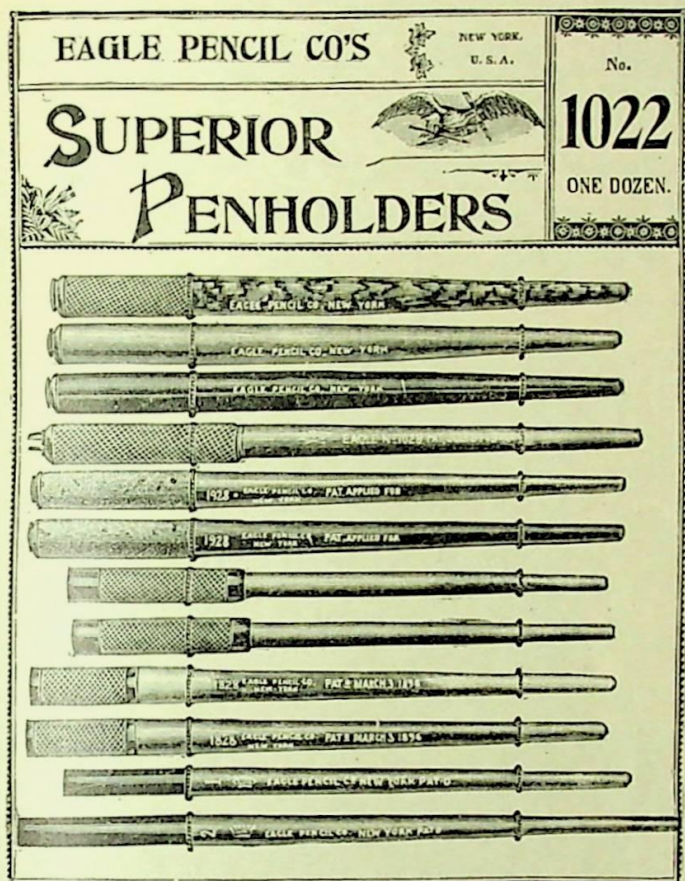

Very choicely selected styles of Taper Penholders, black, natural and variegated finish, with superior nickel end-tips, which hold the pens unusually firm.

## EAGLE STEEL PENS.

---

The manufacture of "**Steel Pens**" by a new and original process, with the aid of the latest "**American Machinery**," was first begun by the Eagle Pencil Company in the year 1889 at their "**Steel Pen Works**," Nos. 703 to 725 East 13th Street.

The policy pursued, for so many years, in our lead pencil business, to make only thoroughly good, reliable and meritorious goods, has been and will be closely followed in the production of this article.

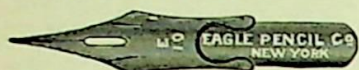

As to uniformity, flexibility, durability and general merits, our Pens, after the severest tests and examination, have been found to be pleasing in all respects to the most exacting and fastidious penmen. In conclusion, would add that their high standard and quality are attested by their extensive use and popularity in all the principal schools, seminaries and colleges throughout the United States.

**540** Per Gross..... \$2 50

## Eagle Pencil Co.'s Steel Pens for Vertical Writing

The introduction of vertical writing into the Public Schools, Seminaries, Colleges and Educational Institutions has become so universal that this style of penmanship is to-day considered far superior and preferable to the old systems.

Not only has this preference manifested itself in the homes of instruction, but the demand for Vertical Pens is also daily increasing for use in Counting Houses, Banks, Offices, etc., throughout the United States.

The features of excellence claimed for this high order of pens are: 1st, that being made by a select and special preparation with the choicest quality of steel in the market, and with the exercise of the most scrupulous care in workmanship, they will secure to the writer easier and more rapid writing than any other styles heretofore used; 2d, that no pressure is required in using them, and that they will not scratch or spatter, and will write with the ease and freedom of a lead pencil; 3d, that they will be found to be vastly superior in point of durability to any of the ordinary manufacture of pens in this or any other country, and being made in medium, medium fine, and extra fine points, they will please the heavy hand or the light hand with an equal degree of satisfaction.

Eagle Vertical Pens have been pronounced by the best authorities of the Vertical System to be superior to all others.

Vertical Pens No. 1. —Medium Point.

Vertical Pens No. 2. —Medium Fine Point.

Vertical Pens No. 4. —Extra Fine Point.

Vertical Pens No. 5. —Medium Fine Point.

Vertical Pens No. 6. —Fine Point.

Vertical Pens No. 7. —Fine Point.

Vertical Pens No. 8. —Medium Point.

All the above styles can be had at the uniform price of 75 cents per gross.

## Eagle Fountain Pens, Pearl Holders and Silver Novelties

We take pleasure in placing before the trade and public our new Catalogue of Fountain Pens and Silver Goods, Pearl Holders, etc. We would call attention to the following few words respecting the construction of our patented Fountain Pens.

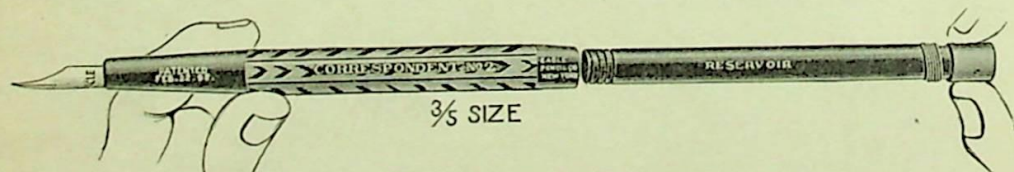

**FIRST—the Pen.** This must be of gold, 14 karats in fineness, that quality having been found by long experience to give the best “spring” and strength, and it also thoroughly resists corrosion by the powerful acids which are constituents of most writing inks. It is a popular error on the part of the uninitiated that gold pens must be tipped with diamond, from the trade term “diamond pointed,” so long applied to them. Diamonds are never used for such purpose, but instead, a rare metal, iridium, valued at its weight in gold and of exceeding hardness, is the universal medium for pointing gold pens of good quality.

The advantages of a gold pen over one of steel are manifest. A steel pen deteriorates by corrosion with ordinary inks from the first dip; it is never twice alike to the hand. Our Eagle Gold Pens resist all inks, retain their fine points and improve by use.

**SECOND—India Rubber, vulcanized or hardened, and also non-corrosive, constitutes the ink reservoir and penholder.**

The great fault of Fountain Pens has been the liability of leakage at the screw section. That fault is entirely overcome in the Eagle Fountain Pen. Our feed mechanism works smoothly and automatically. Every Eagle Fountain Pen is tested by experts before delivery for sale, and we value our reputation too highly to allow imperfect goods to leave our manufactory.

In quantities we will get up special imprint for dealers both on barrel of Fountain Pen and boxes.

SHOWING INSIDE RESERVOIR.

An original and non-leakable Fountain Holder, fitted with 14 karat gold Pen. Made without screw section at nozzle. Prevents soiling fingers with ink. All pens are filled with ink, ready for use.
